

NETSCALE PRODUCT FAMILY

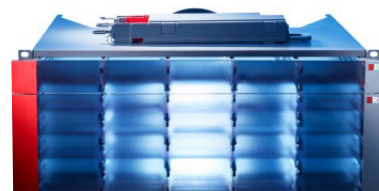

Patch Cords

Quick-release uniboot design minimize bulk cabling and simplify patching

Cassettes and Modules

Modular components provide best-in-class network scalability

Housings and Cable Management

R&M *MintelIPhy* capability and Rear-Cabling Manager for unmatched visibility and handling

Trunk Cables

Small form-factor furcation plug for snap-in fixation and round breakout legs for non-preferential bend

Delivering the highest 10/40/100GbE density of any fiber solution out there

- ◆ World's densest fiber solution, offering 14% higher density than runner-up, and 67% more than the rest
- ◆ Unmatched cable management with innovativ rear-cabling manager
- ◆ First ultra-high density platform with automated infrastructure management capability
- ◆ Smallest diameter uniboot patch cord with 1.4 mm diameter, push-pull design, polarity-change choice, and optional RFID tag
