

Cat.6 Patch Cords R&MthinLine

R&MthinLine Cat.6 high end patch cords are used for connecting network equipment where size matters and a high density is needed, for example in data centres. It allows almost for a doubling of the cable amount in a given cable management system. Using the patented R&M RJ45 plug with its unique IDC technology they are suitable for power delivery (PoE) up to the highest levels. They are suitable for frequencies of up to 250 MHz.

Features of R&MthinLine Cat.6 Patch Cord
