

Data sheet

R&M 19" Modularpanel-36-for 3x7HP-Module

The modular 1U solution for Fibermodule & MPO-Module

The R&M Modularpanel-36, is a modular designed 19" 1U patch panel. Configurable with up to 3 psc. 7HP modules like Fibermodul or MPO-Modul, or also usable as a pure breakout solution in combination with 7HP front plates. The main application is 19" or with an adapter also useable for 21" horizontal installed equipment on 1U. Cable guide can be installed on the same unit and guaranties an optimized fiber guiding for all patch cords.
